

NINGXIA MEDICAL COLLEGE

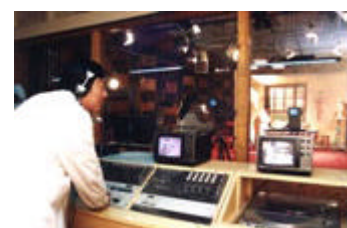

Ningxia Hui Autonomous Region, one of the five autonomous regions in China, and the smallest of all provinces in China, is situated in the west of the Great Bend of the Yellow River. Hui people make up about thirty percent of the four million population, the remainder comprising mainly Han. Its capital city is Yinchuan, the political, economic, and cultural center of the region, and also a famous historical and cultural city. Thanks to the ancient Huanghe River irrigational system, the northern part of Ningxia is well irrigated and known as the land of fish and rice in the North.

Laboratory

Ningxia Medical College offers the finest laboratories which helps the student to concentrate more on his chosen topics. The laboratories exhibit the finest instruments and a dedicated staff to assist students throughout.

Library

Covering an area of 2500 square meters, the college library provides a collection of 200, 000 books. Besides 42, 000 categories of bound periodicals, the library has 1004 Chinese journals & 658 foreign periodicals. The information on the above - mentioned collection has been brought into the index system of the nationwide computer net. The library has 3 reading rooms open simultaneously. The students reading rooms are open 82 hours per week and during 8 hours each day it is possible to borrow books from the stack.

room The average annual number of readers is 30 thousand The two publication of the College "Ningxia Medical School Magazine" and "Ningxia Medical Journal" are well accepted all over the country. The new library of the college is under the construction.

Campus

Ningxia Medical College, founded in 1958, is the unique higher learning medical institution of Ningxia Hui Autonomous Region. It was merged into Ningxia University in 1963.
