

Shanghai University of Finance and Economics (SUFE)

Shanghai University of Finance And Economics (SUFU)

Founded in 1917, Shanghai University of Finance and Economics is a multi-dimensional university which focuses on applied economics and management with theoretical economics as its basis, and its subjects include science, law, philosophy and humanities as well. The University aims at training students to graduate with practical knowledge and versatile talents, and having a broad view. SUFE is widely recognized as a source of outstanding economists and business managers and is under the direct administration of the Ministry of Education, PRC. SUFE has been selected as one of the 21st Century's 100 key universities in China. SUFE is located in the beautiful city Shanghai in the east of China. The University is one of the few universities in China with post-doctoral research centers in the fields of Economics and Management. It is also among those universities in China which first offered MBA and EMBA programs. Presently, SUFE consists of 18 schools or departments, such as The School of Accounting, The School of Finance, and The School of International Business Administration. There are totally more than 20,000 registered students, of which 8,000 are undergraduates, more than 5,500 are graduate students towards master or Ph. D degrees and 1,000 students from 46 foreign countries , nearly 70% of them are studying towards a degree.

International Cultural Exchange School(ICES) of SUFE is devoted to the education of foreign students and enrolls both students who have won Chinese Government Scholarship and students studying at their own expenses. SUFE has initiated various academic exchange & cooperation with a large number of foreign universities .The School focuses on the training of students in the field of international economy and management who have a good understanding of China's markets and economy. Chinese language training course has Business character. With the trend towards globalization and China's access to WTO, the School has become Number One choice for those who want to pursue a degree in the fields of economics and management in China.
